**Update: 7/22/2019**

The construction crew is preparing the site before adding a layer of sand and gravel.

***Update: 6/12/2019***

Work on our first Building & Site Sinking Fund project has begun! SPS staff have begun removing the old equipment at Congress Elementary so that work can begin over the summer. Once completed, the new playground will be safe and accessible to all students.

A committee of stakeholders have recommended Sinclair Recreation to

complete this project. The playground is projected to be completed before school starts in the fall, and will be funded by Building and Site Sinking Funds as well as General Funds.
