

Project: Eastwood Flooring & Painting

Objective: Replace 29 year old carpet with LVT/ceramic tile & repaint walls

Funding: ESSER III Funds & Public Improvement Funds

Status: Completed February 2023

The three instructional wings at Eastwood Elementary School previously had carpet (installed in 1994). This carpet was replaced with LVT in all classrooms and ceramic tile in all hallways throughout the 3rd, 4th, and 5th grade instructional wings of the building. In addition to the flooring, new baseboard was installed, the walls were repainted, and the pillars were removed from the instructional common areas.
